16:20:13 From Dave - Crescent City:  
Permission to record?

16:32:01 From Paul Hannaby:  
I have something to show

16:32:05 From Matt Harber:  
I have a gallery piece

16:32:07 From Paul McDaniel in Merritt Island, Florida- USA:  
I have 5 items for gallery

16:32:16 From Joaquin Juatai:  
I have a piece

16:32:49 From Ron Vincent:  
I have something

16:32:53 From Mike Morris:  
I have something

16:37:06 From Dane Chandler -Tucson AZ:  
got y'all listed

16:37:39 From Dave - Crescent City:  
FYI: let you know; Jack Brown showed us his ornament with diagonal cuts. We asked he provide information about his jig. He provided an article about the jig on our site ... at <https://worldwidewoodturners.org/router-jig-for-slotting-on-lathe/>

16:38:30 From Dane Chandler -Tucson AZ:  
I have u down neil

16:39:38 From Andy Schuster:  
very nice goblets pa;ul

16:40:32 From Hank:  
Very Nice!

16:40:42 From Martin Clarkson:  
eddi put me as co host I will try and keep up with the spotlights for you

16:43:29 From Jason Collett:  
I have a gallery item

16:44:11 From Darquise:  
Did you have to stabilized the wood, before you used the alumilite. Did you then pressure

16:48:45 From Andy Schuster:  
that is very clever and unique

16:51:32 From Ron Radliff:  
Here's a link for Spectraply <https://www.cwp-usa.com/collections/spectraply-blanks>

16:52:04 From Lan Brady:  
nicely done Bob

16:52:10 From Clint Hoyle:  
I have a couple things to show

16:53:12 From Lan Brady:  
is the small bowl a core?

17:03:50 From Dave:  
we can hear you Doug

17:09:08 From Doug in Arizona :  
Okay, I have audio again. Thank you Paul Hannaby

17:10:16 From Chuck Slattery:  
seems like Zoom is being fickle tonight I completely  
lost everyone a few minutes ago

17:11:36 From Doug Miller:  
can anyone tell me what the door bell and chime is that  
I'm hearing every couple

17:11:46 From Doug Miller:  
of minutes??

17:11:52 From Doug in Arizona :  
Its because I made you a co host

17:12:05 From Doug in Arizona :  
The fist chime is someone entering the waiting room

17:12:06 From Paul Hannaby:  
that's when someone joins the meeting

17:12:09 From Joaquin Juatai:  
that's what hosts hear when someone enters the meeting.

17:12:16 From Doug in Arizona :  
the second chime is someone letting them in

17:12:50 From Doug in Arizona :  
<https://www.facebook.com/groups/2464238203794458>

17:13:31 From Doug in Arizona :  
The link I just posted should take you to our World Wide  
Woodturners Facebook page

17:15:56 From Steve Maikell Colorado:  
nice finials

17:17:05 From Kade B:  
Hello everyone. good evening.

17:17:40 From Matt Harber:  
Hi Kade! Good evening!

17:17:45 From Chuck Slattery:  
good evening

17:18:40 From Doug in Arizona :  
Bruce from TN. I have turned one other bowling ball.  
This was supposed to be my second one.

17:20:20 From Rabalais's iPad:  
what wood is the final made of?

17:21:02 From Steve Maikell Colorado:  
are those hollow

17:25:46 From John Brown:  
I( have a piece to show.

17:31:19 From Brent Sobotka, Buffalo, WY:  
Will finishes stick to E6000?

17:32:42 From Dave:  
[https://www.amazon.com/s?k=e6000&ref=nb\\_sb\\_noss](https://www.amazon.com/s?k=e6000&ref=nb_sb_noss)

17:33:26 From brenda thornton:  
thanks dane

17:33:58 From Matt Harber:  
I have some... pin my video quick, if you want to see the tube.

17:35:01 From Dane Chandler -Tucson AZ:  
don't use e6000 for a structure hold (peppermills type), will not hold.

17:35:49 From Dave:  
Dane - like metal to wood = structure?

17:36:44 From Matt Harber:  
I use E6000 on sanding mandrels - made from engine valves or a bolt with a washer on the end of it....

17:37:06 From Dane Chandler -Tucson AZ:  
yes....particular to a movement function, case in a peppermill holding the grinder mechanism. I made a batch last year and they all failed on me.

17:37:32 From Chuck Slattery:  
its all in bins well organized

17:41:50 From James Desbrow Alamo Woodturners:  
Welcome Dalles. Find a turning club near you and join.  
You will happy you did.

17:43:48 From Andy Milligan Tenn:  
Gardeners knee pads from Ace Hardware works well also.

17:43:56 From Chuck Slattery:  
you could probably cut up 1 of them foam flip flops for foam.  
that stuff is pretty durable and cheap.

17:44:04 From Dane Chandler -Tucson AZ:  
micro mesh pads work as a good backing for sanding discs

17:44:36 From Chuck Slattery:  
i been wanting to see this thing in action

17:44:38 From Matt Harber:  
You want something strong that won't tear under the  
stress of spinning and sanding. I power sand on the lathe,  
with a corded drill.

17:47:05 From Kade B:  
flexing and jumping across the surface!

17:47:57 From Gerald Avery, Winter Haven, Fl:  
"controlled chatter"

17:48:06 From Dan Rozell:  
Is it sharp or just blunted off ?

17:49:43 From Gerald Avery, Winter Haven, Fl:  
Moma's butter knife also worked. Don't get caught taking one.

17:49:44 From Steve Maikell Colorado:  
hold with vise grips too

17:50:52 From brenda thornton:  
thanks Doug Imbo

17:51:47 From brenda thornton:  
I got something to show

17:53:22 From Bob Moffett - N.C.:  
Mark showed us a scraper that he made for making dovetails for your chuck,  
what angles was it ground at?

17:53:59 From Paul McDaniel in Merritt Island, Florida- USA:  
I have items for gallery tonight

17:54:58 From Matt Harber:  
Bob, it needs to be square, but at an angle from the shaft  
so you can make the dovetail square. The grind is the same grind  
as a basic square or round scraper (70 degrees?).

17:57:13 From Chuck Slattery:  
i have something for gallery

17:59:37 From Patrick Hoggard, NC:  
I have a piece for gallery.

18:00:59 From Dave:  
Pen has got to fit in the uniform pocket

18:02:38 From Vic Vickers, PPW - COLO:  
If they will carry in uniform, the pen pockets are narrow. Sierra won't fit.

18:02:39 From Steve Maikell Colorado:  
I can give some to US Space Force in Colorado too if need other units

18:03:10 From Gordon Kincheloe- Alamo:  
I've found that the troops like the slimlines because  
they fit in the sleeve pockets better

18:04:00 From Billy Dillard Houma, Louisiana:  
Knurl nut pen penn state ind

18:06:20 From Dane Chandler -Tucson AZ:  
brenda, paul, chuck, Patrick up next for galley

18:06:36 From Chuck Slattery:  
ok thanks

18:08:54 From Steve Maikell Colorado:  
is she outboard turning

18:11:24 From Waukeene Vinson, CC, Texas:

I got a couple pieces to show

18:11:29 From Kade B:  
a lesson would be a good idea.

18:11:56 From Steve Maikell Colorado:  
hate to see what gouge looks like

18:13:25 From Joaquin Juatai:  
my laguna extension split vertically on the part where  
the tool rest sits in the end - I tightened the tool  
rest down the first time and the sucker cracked.  
I'm still waiting on a replacement 5 months later.

18:13:58 From Gerald Jensen:  
Robust does make a part called a 'dog leg'

18:16:24 From Jake:  
Suggest not using an extension. The force from  
a catch with the extension can be a large force do  
to leverage. Consider a larger lathe or visit a  
friend with a larger lathe for this project.

18:17:22 From Kade B:  
start small, less risk. the bigger you go the higher the risk.

18:19:07 From Jeffrey Schnell:

18:19:16 From brenda thornton:  
thanks everyone

18:20:06 From Dan Summers - Columbus Ohio:  
that is a Jet piece. [ereplacementparts.com](http://ereplacementparts.com) look like  
that they have it as a special order. \$74.90

18:23:21 From Gerald Avery, Winter Haven, Fl:  
my Jet 1442 has that item. It is called an extension tool rest.  
Go on the Jet website and you may be able to copy an owner's manual.

18:29:14 From Chuck Slattery:  
thank you everyone

18:30:28 From Gerald Avery, Winter Haven, Fl:  
good night ...Thank you for Demos and advice

18:31:24 From Dan Rozell:  
looks like a ghost wrapped around it

18:31:33 From Martin Clarkson:  
got to say goodnight guys i am away for a few weeks eddie  
but i may be able to join you depending on internet if not  
i will see you in 4 weeks stay safe every one and keep turning

18:31:39 From Kade B:  
beautiful pieces. very nice Waukeene

18:31:53 From Doug in Arizona :  
This the youtube link to Stephen Ogle bowl he showed  
us last week <https://www.youtube.com/watch?v=hJEfEBuSJM8>

18:32:37 From brenda thornton:  
that's a very beautiful piece

18:33:02 From Doug in Arizona :  
Mark silay wood slicing <https://www.youtube.com/watch?v=OCikQVvx5P4>

18:33:25 From Chuck Slattery:  
Gwinnett Woodworkers?

18:33:50 From Dick Meuler:  
Why can't we private chat??

18:34:13 From Paul McDaniel in Merritt Island, Florida- USA:  
From Ron Radliff to Everyone:  
09:27 PM [https://www.youtube.com/watch?v=OCikQVvx5P4&t=37s&ab\\_channel=GwinnettWoodworkers](https://www.youtube.com/watch?v=OCikQVvx5P4&t=37s&ab_channel=GwinnettWoodworkers)

18:34:45 From Andy Schuster:  
well folks, thanks for the great ;meeting, so much  
info and inspiration. good night all and see you next week

18:35:22 From Chuck Slattery:  
lol we do it with portages band blades at work to  
mess with apprentices turn it inside out

18:35:38 From Chuck Slattery:  
apprentices

18:35:53 From Chuck Slattery:  
portaband

18:37:15 From Doug Miller:  
Dick you can. You have to select the person  
you want to talk to where it says "send to:"

18:37:47 From Dick Meuler:  
I can chat with a co-host, but no one else. How come?

18:38:09 From Gerald Jensen:  
Actually you only chat with host/co-hosts ...  
nobody else shows up on the list.

18:39:02 From Doug Miller:  
tap there we're it says send to, ho to the top, select "everyone."

18:40:00 From Dan Rozell:  
Doug - when selecting it, it only shows hosts  
and co-hosts. Last week, we could see everyone and  
send private messages to anyone in the room

18:40:47 From Dan Rozell:  
Eddie - it is no longer working this week

18:40:53 From Steve Maikell Colorado:  
we

18:41:00 From Steve Maikell Colorado:  
we're blocked

18:41:04 From Ron Radliff:  
Start typing the name of the recipient and it will show up

18:41:23 From Chuck Slattery:  
i see everyone and all individuals

18:42:13 From Dan Summers - Columbus Ohio:  
I just see co-host

18:42:25 From Gerald Jensen:  
I have the latest version ... maybe that's  
the problem ... something broke in the update?

18:42:54 From Stephen Ogle:  
Got to go. Great meeting. See you all next week.

18:46:19 From Mark Sillay's iPhone:  
I can show a mimosa gallery piece mark sillay

18:50:10 From Hank:  
Thanks everyone and Good night!

18:55:45 From Chuck Slattery:  
that looks awesome
