Thanks Doug. Can I add that info to the website calendar?

18:51:51 From Matt Harber:  
Hey Dave... if you're burning the wood, that implies that you're not cutting,  
but burnishing with the bevel.... So see if either your tool edge is dull or  
you are getting shavings coming from your slicing tool edge...

18:52:35 From Dave - Crescent City to Doug Miller in KY(Privately):  
Thanks, I will check the edge for sharpness. That make sense
