;) I am sure the debate is long and contentious...
I've discovered that with noise cancellation ON, folks

listening can hear what I am saying better, doesn't get drowned out by lathe noise.

17:29:19 From dickstohr va to Dave Rhodes - Crescent City(Direct Message):

Hi dave, The card that Eddie & the web site shows is Wig Stand Warrior, but mine prints Wig Stand Creators. Is that by design? (I like Warrior better). But thanks for all you do for us.

Spiraling tool usage gets my vote!

17:35:07 From Paul Hannaby creative-woodturning.com to Everyone:

with my audio setup, nobody hears the noise of the machinery

17:35:49 From Dave Rhodes - Crescent City to dickstohr va(Direct Message):

Oops, I will have to check that out. It was not intentional. Originally it was Wig Stand Creator, then, I was supposed to change it. I think I changed it in one location and not the other. I will update the print version after the meeting and get them both the same

"Wig Stand Warrior." Thanks for mentioning that error (SMILE).
