16:23:16 From Joaquin Juatai:
I use carbide for tight spaces like small lidded boxes.
I don't own any small box scrapers, but the carbide works
fine as long as I keep my touch light.

17:12:07 From Brent Sobotka:
if the color stays in suspension without stirring it is a dye.
If you have to stir it, it is a stain.

17:14:45 From Mike and Cindy Miller:
New to woodturning and dropped in to learn more.

17:15:04 From Dane Chandler -Tucson AZ:
welcome!

17:17:04 From Matt Harber:
Different kinds of inks:
India Ink is water based, pigment suspended. Will dry and
not move if alcohol is added on top.

Alcohol Ink is alcohol based and will re-liquefy if alcohol is added later.

17:17:52 From Ronald Todd:
What about black shoe polish.

17:19:00 From Joaquin Juatai:
Love the ebonizing tips. I have a mess of maple I can use
rather than burning up African Blackwood pen blanks.

17:19:23 From Matt Harber:
Exactly, Joaquin!

17:20:32 From Bob Grinstead Mansfield, TX.:
Glad to have you both, Mike and Cindy Miller

17:21:22 From Susan's iPad:
Well come Mike and Cindy Miller!!!

17:22:03 From Dane Chandler -Tucson AZ:
matt, your audio is better/louder when you lean into it

17:22:10 From Joaquin Juatai:
Yes! A sharpening demo would be awesome!

17:22:22 From Matt Harber:
Thanks, Dane.... I'll have to fiddle with it...

17:23:04 From Mike and Cindy Miller:
Thanks I need to listen at this point. Speaking of which,
tips on sharpening a roughing gouge?

17:23:54 From Mike and Cindy Miller:
And Cindy has other hobbies; Mike is the woodturner.

17:25:22 From Joaquin Juatai:
I maintain the edge on my roughing gouge with a diamond card.

17:25:35 From gary in Oklahoma City:
I have suggestion for a demo or comments and that is movement
of your feet. When I turn or take a pass on a large bowl and
are turning the outside, I have to shift my feet mid pass
which bothers me keeping a smooth pass

17:26:07 From Matt Harber:
Try planting your feet as wide as you can, then move from the hip...

17:26:34 From Joaquin Juatai:
I stop, move, and pick the slice back up.

17:27:40 From Charlie Bundy Grand Rapids, Mn.:
It' a Tppin Grind

17:31:52 From Mike and Cindy Miller:
Great info. I have a grinder but no jig, and the grinder is high speed. I can shop at Rockler or Woodcraft for sharpening tools. Did not mean to derail any conversations.

17:32:24 From Dane Chandler -Tucson AZ:
nothing be derailed at all.

17:34:13 From Mike and Cindy Miller:
What is the purpose of the Irish grind?

17:35:28 From Matt Harber:
An essential conversation....
Irish grind (also called Ellsworth grind) is for general use.
I no longer use a roughing gouge, I use my deep-fluted bowl gouge with an Irish grind to rough, shape, and partially hollow.
The grind is enormously versatile.

17:36:01 From Mike and Cindy Miller:
Thnx, Matt.

17:37:00 From Matt Harber:
You're very welcome. I strongly recommend a jig of some sort - the Wolverine system is good. I have the Tru-grind system and love it.
There are youtube videos also of how to make your own sharpening jig.

17:37:03 From Karl Geary outside Atlantic City-NJ:
Never use a roughing gouge on a bowl!

17:38:45 From Tom in East Tennessee:
Thompson is much harder too

17:41:23 From Dane Chandler -Tucson AZ:
if you have a gallery items put it in chat

17:41:46 From Gary Bobenhausen-Corinth, Texas:
I have something.

17:42:07 From Joaquin Juatai:
I made the investment in the Sorby ProEdge. It's well worth the investment.

17:42:13 From Brenda Thornton Ohio:
I have 4 ice cream paddles to share

17:42:19 From Mike and Cindy Miller:
Nothing "show" worthy from me. Not yet, anyway.

17:42:57 From Bill Louch:
I have a couple of small pieces to show.

17:43:54 From Tom in East Tennessee:
give him a birdwood award

17:47:37 From Matt Harber:
Acer Negundo = Manitoba maple, box elder, soft maple

17:48:23 From Joaquin Juatai:
Same as what they call silver maple here in the South, Matt?

17:50:09 From Glenn Dornak:
I have something to show

17:50:19 From Joaquin Juatai:
Ok. Thanks. I wasn't sure. I have a ton of silver maple and
"hard maple" to work with.

17:52:38 From Matt Harber:
No.... silver maple is different, as is sugar maple.
Acer saccharinum = Sugar Maple (we have that up here in Michigan, too)
Acer saccharinum L. = Silver maple (also have that)

17:52:49 From Dean Grimes TX:
I have something

17:53:05 From Bill Louch:
Box elder and silver maple are not quite the same tree. Box elder
is also called ash leaf maple because the leaf does not really look
like maple the way silver maple does.

17:54:03 From Joaquin Juatai:
Thank you Bill. I learn something every day.

17:55:07 From Matt Harber:
The bark is also quite different between box elder and silver maple....

17:57:32 From Joaquin Juatai:
Ok, I have a maple bowl that is red.

17:57:40 From Joaquin Juatai:
I can show it.

18:00:18 From Matt Harber:

18:03:27 From Brent Sobotka:
I agree. Apple

18:03:40 From Bill Louch:
Therer is way too much grain in this to be maple.

18:04:05 From Sandi Swayze, OPCAaw:
Dane, I have a piece to show.

18:05:41 From brenda thornton ohio:
i forgot to show you my bowl

18:08:40 From Bill Louch:
I have a hard (sugar) maple candy dish to show for comparison.

18:09:20 From Matt Harber:
I can show some silver maple goblets....

18:19:21 From Joaquin Juatai:
the mallets I am about to cast are from a persimmon branch.

18:22:34 From Matt Harber:

18:23:51 From Doug Rowe still in Arizona but not at home:
Hey everyone I can't stay on tonight, but I wanted to give a shout out and a thanks to Kim Tippin and David Debenedetto sr.
For the pens they sent me this week.

18:28:32 From Jason collett monument co:
? I have one cbn 180 grit wheel would it be worth getting a
400 or 600 grit wheel to go with it

18:28:57 From Dane Chandler -Tucson AZ:
I use a 180 & 600

18:30:12 From Dane Chandler -Tucson AZ:
on one of those dreaded high speed grinders.....slow speed
over high speed is akin to cholesterol free peanut butter

18:30:27 From casey:
I thought I heard somewhere that diamond honing stones are
not all created equal. Can some of the experienced turners
recommend what stone they prefer?

18:30:51 From Jason collett monument co:
I have a slow speed grinder

18:31:27 From Joaquin Juatai:
I haven't made a meeting since last winter. That's bad on me.
Thanks for the sharing of information! I have learned a lot
just this evening!

18:31:47 From Matt Harber:
I have 3 of these. \$8.95 on Amazon. I love 'em. I do think
there are better ones, but I've used these for years.
<https://www.amazon.com/HTS-131A0-Double-Diamond-Sharpening/dp/B00U1T2ZVM/>

18:32:00 From Dane Chandler -Tucson AZ:
I highly recommend trend diamond stones. the diamonds are impregnated
into a nickel core & not a plexy film.

18:32:43 From Matt Harber:
I have a box elder vessel I can show..... grin!

18:33:19 From Doug Rowe still in Arizona but not at home:
4125 N Kearny Drive Prescott Valley Arizona 86314 (602) 501-2878

18:33:53 From Doug Rowe still in Arizona but not at home:

18:34:34 From Matt Harber:
G'nite, Doug, take care!

18:36:56 From Joaquin Juatai:
That's where I got the "maple" that turns out to be apple. A wood lot

for q tree service.

18:37:06 From Matt Harber:
Haaaa!

18:39:35 From Joaquin Juatai:
I have a pile of off-cuts of kiln dried cherry I am going to cut
straight and glue up to turn.

18:39:49 From Matt Harber:

18:41:44 From Sandi Swayze, OPCAaw:
Very nice Kim(smiley face)☺(smiley face)☺

18:41:45 From Matt Harber:
I have one more thing....

18:48:43 From Gerald Avery, Winter Haven, Fl:
I remember Sarge Joe Kelly and "the Freedom Pens Project" back
in 2011. He has since passed away and I am glad that WWWT

serving us in harms way. Locally, Our pens are going to our
