I usually use forstner bits at lower RPM...
I've burned some out by going too fast....

16:42:37 From Doug Miller in N Kentucky to Everyone:
Me too. Was told to use Forstner bits as slow as I can.

I typically don't go above 400 RPMs on forstner bits.

16:44:17 From Captain Eddie to Everyone:
Forster will drill a hole, but the heat it develops
can destroy your project or lead to problems with hollowing, etc.

16:44:33 From Doug Miller in N Kentucky to Everyone:
Eddie, I believe you can shut off the side banner and
solve the issue for your audio. Sounds like Walt is
having bandwidth issues as well.

16:47:32 From Doug Miller in N Kentucky to Everyone:
Hi Bob. You feeling ok?

16:48:01 From Captain Eddie to Everyone:
