15:35:19 From Dave Rhodes - Crescent City to Everyone:
Evening all

15:35:20 From Neil Mack Florida to Everyone:
Hello everyone!

15:36:17 From Donald Masterton Lara Vic Australia to Everyone:
hi all

15:36:32 From Dave Rhodes - Crescent City to Everyone:
Please allow me to record (SMILE)

15:36:58 From Haim Matza to Everyone:
Hi All

15:37:50 From Dave Rhodes - Crescent City to Everyone:
Recording

15:40:24 From Scott Hampton to Everyone:
Currently 104-degrees where I am in central California
with 38% humidity. Finally got the swamp cooler in my shop
going so it's helping ease the pain.

15:41:22 From Dave Rhodes - Crescent City to Everyone:
Just too cool there in the central valley. (SMILE)

15:43:09 From David j Edwards Michigan to Everyone:
Hello Everyone

15:48:32 From Dave Rhodes - Crescent City to Everyone:
Evening Dave

15:51:12 From grisw to Everyone:
hay everybody john fl.

15:54:58 From brenda thornton greenville ohio to Everyone:
hay jayson...welcome back..its been awhile

15:59:47 From Matt Harber to Everyone:
Howdy all!

16:00:28 From huck joe kansas to Everyone:
Hello Matt, Also to all.

16:01:16 From Dave Rhodes - Crescent City to Everyone:
Jason, do you really have tools hanging over your head? How do
you keep them there safely? I like the idea, but, would not
know how to hold them safely

16:01:16 From Matt Harber to Everyone:
Howdy huck!

16:02:16 From Haim Matza to Everyone:
I use for finished
max odorless mineral spirits
gloss oil polyurethane
boiled linseed oil

16:03:37 From Tommy Schutz to Everyone:
Texas is way hotter

16:05:03 From Dane Chandler -Tucson AZ to Everyone:
nope

16:05:28 From Matt Harber to Everyone:
I ALREADY bring my own stuff to this meeting....

16:05:34 From Dane Chandler -Tucson AZ to Everyone:
if you have gallery item put it in the chat!

16:05:57 From Doug Miller in Kentucky to Everyone:
I have gallery

16:06:01 From brenda thornton greenville ohio to Everyone:
I have 2 more bowls this week but I

16:08:31 From Jay to Everyone:
Cheers from Prescott Az

16:08:33 From Ron Vincent in Wyoming,mi to Everyone:
I have something to show

16:09:41 From Steve to Everyone:
Good evening, everyone!

16:10:01 From Kade Bolger, Woodturner to Everyone:
Be careful turning bowling balls made before 1982!
They are full of ASBESTOS! □ □

16:10:25 From Tim Hatch Bastrop, TX to Everyone:
Good Evening Everyone...

16:10:35 From pwolgastshea to Everyone:
Beautiful piece!

16:12:12 From Doug Miller in Kentucky to Everyone:
I have my pear bowl now.

16:12:54 From Bob Grinstead - Mansfield, Texas to Everyone:
I have a couple of things

16:12:55 From Tim Hatch Bastrop, TX to Everyone:
Very nice Brenda....

16:13:00 From Billy Burt (Alamo City) to Everyone:
My demo platters are finished

16:15:00 From Tim Hatch Bastrop, TX to Everyone:
got a little piece of Pine I turned for practice...
on colorizing.. turned out ok...

16:17:20 From Doug Miller in Kentucky to Everyone:
Thanks guys. I've changed mics

16:19:07 From Matt Harber to Everyone:
☐ ☐

16:22:07 From brenda thornton greenville ohio to Everyone:
thanks tim

16:22:55 From Don Norton to Everyone:
I have something to show

16:23:26 From Dave Kingsley - Lakewood NY to Everyone:
I have someth9iong to show

16:25:59 From Billy Burt (Alamo City) to Everyone:
I have something, Dane

16:28:32 From Jim Duxbury . to Everyone:
I could show some half bowls

16:29:54 From Dane Chandler -Tucson AZ to Everyone:
please let the person who is talking finish & then you can jump in. manners folks.

16:29:55 From Mike Keebaugh Oregon to Everyone:

16:30:58 From Scott Hampton to Everyone:
This Saturday, be sure to check out the FREE all-day
'Virtual Crafters Fair' on YouTube. Follow this link
<https://youtu.be/PoF4hW66up0> to be taken to my channel
where I have put in my video description the list of
sixteen crafters, the time schedule, and the links to
their YouTube channels. My presentation is from 4:00 pm
to 5:00 pm pacific time. I hope to see you there.

16:31:30 From Jason monument co to Everyone:
I have something

16:35:37 From Doug Rowe to Everyone:
Dane if we get slow on gallery, I can do about a two minute demo on how I fill cracks.

16:35:40 From pwolgastshea to Everyone:
So sweet, congrats!

16:36:45 From Doug Miller in Kentucky to Everyone:

1624 with the variable speed upgrade. Love it.

16:37:57 From Tim Hatch Bastrop, TX to Everyone:
I got something to show.

16:39:54 From Doug Rowe to Everyone:
I just had a hail storm start. Hopefully I don't get kicked off.

16:41:35 From Dane Chandler -Tucson AZ to Everyone:
put your gingersnaps in that

16:52:33 From Dane Chandler -Tucson AZ to Everyone:
all I use is rit....I prefer the liquid over the powder as not
all the granules will dissolve & will block up your dispenser
(I use vape juice bottles).

16:52:35 From Bob Grinstead - Mansfield, Texas to Everyone:
I have something

16:55:16 From Kade Bolger, Woodturner to Everyone:
I use Chestnut Spirit Stains straight out of the can, not diluted. As I
want repeatability straight out of the can. Good luck getting
repeatability with mixing dyes and solvents.

16:57:59 From Harvey Brooks to Everyone:
Please mute the background noise.

17:00:30 From Kade Bolger, Woodturner to Everyone:
Beautiful bowl Doug

17:01:08 From Kade Bolger, Woodturner to Everyone:
That is asbestos in that ball

17:01:57 From Kade Bolger, Woodturner to Everyone:
the second one, the Styrofoam like substance you mentioned.

17:01:59 From Mike Keebaugh Oregon to Everyone:
we cannot hear the hail like you can

17:03:43 From Dane Chandler -Tucson AZ to Everyone:
folks....keep your comments till the end of the demo.

17:04:38 From Dane Chandler -Tucson AZ to Everyone:
I am also looking for new demonstrators from those of you who like
to add to ongoing demos. let's step up and do some turnings for
the club!

17:06:04 From Billy Burt (Alamo City) to Everyone:
Ebonite (rubber) balls and urethane bowls will turn well. You want
to stay away from the polyester bowls. Not sure about the reactive
resin balls. I used to turn a lot of bowling ball pens.

17:07:15 From Billy Burt (Alamo City) to Everyone:
My favorite was Ebonite, but they are harder to find.

17:07:27 From Joe Duncan to Everyone:

have you considered cup centers used by people when turning spheres to start out

17:08:23 From Billy Burt (Alamo City) to Everyone:

A cup center turned to fit your live center would be a great resource for this.

17:08:26 From Matt Harber to Everyone:

Excellent idea, Joe. You can make those out of shop wood for you centers...

17:10:49 From Scott Hampton to Everyone:

Why a point center instead of the cup center without the point installed???

17:18:16 From Scott Hampton to Everyone:

Some bowling balls come with a cone shaped balancing weight inside, which I think should be something to watch out for because of the different materials inside.

17:25:05 From Bob Grinstead - Mansfield, Texas to Everyone:

Heather thanks for sharing your video editor. it is super easy and works great.. "Kinemaster"

17:26:16 From Heather Spiritwynd to Everyone:

you're very welcome Bob! glad I could help!

17:29:35 From Dane Chandler -Tucson AZ to Everyone:

lol right

17:29:40 From Heather Spiritwynd to Everyone:

we're having the same weather here in Ontario ☐ ☐ ! Tornado warning, 2" hail warning! just rain so far ☐

17:29:42 From Kade Bolger, Woodturner to Everyone:

Good old silly string.

17:30:35 From Bob Grinstead - Mansfield, Texas to Everyone:

I'll be right there

17:30:41 From Dane Chandler -Tucson AZ to Everyone:

this is not his first bowling ball folks!

17:31:56 From Kade Bolger, Woodturner to Everyone:

Yes we are also getting nice a heat wave in the 40's °C -- 104 °f. That's our July and August.

17:32:16 From Scott Hampton to Everyone:

I was in Prescott last February for a leatherworkers convention at a hotel on of a very tall hill. We ate the 'Palace Saloon' on Whiskey Row and had the best steak dinner my wife and I ever had.

17:33:10 From Jay to Everyone:

Scott - I can see the Palace Saloon from my back deck

17:33:10 From Bob Grinstead - Mansfield, Texas to Everyone:

Kade do y'all have A/C

17:33:44 From Dane Chandler -Tucson AZ to Everyone:
indeed. I have had my best steak dinner down south of here in Sonoita.
something about AZ beef makes it so good!

17:33:49 From Tim Hatch Bastrop, TX to Everyone:
Yeah that's not gonna be turned in my shop...LOL

17:34:04 From Heather Spiritwynd to Everyone:
I believe that you're fairly close to me made. Orillia is 30 min from me

17:34:08 From Scott Hampton to Everyone:
'We ate 'at' the...lol. No we didn't eat the Palace Saloon, lol.

17:35:19 From Billy Burt (Alamo City) to Everyone:
I think I may need to clean my shorts!

17:35:46 From Tim Hatch Bastrop, TX to Everyone:
HAHA

17:36:06 From Billy Burt (Alamo City) to Everyone:
I actually jumped!

17:36:24 From Dane Chandler -Tucson AZ to Everyone:
I did too!

17:36:26 From Ron Radliff to Everyone:
Me too, Billy

17:37:01 From brenda thornton greenville ohio to Everyone:
I jumped...omg I thought he got hurt☐

17:37:01 From Scott Hampton to Everyone:
Jay, that' so cool. We love visiting Prescott each year for the convention.
It's held at a hotel/casino on top of a hill. I can never remember the name of it.

17:37:39 From Jay to Everyone:
Bucky's

17:37:51 From Scott Hampton to Everyone:
Yep, that's it.

17:38:03 From Kade Bolger, Woodturner to Everyone:
Bob. Yes, we have A/C. No fun sleeping in plus 40 with out A/C. Just get stuck
to everything. lol.

17:39:10 From pwolgastshea to Everyone:
Love you Doug, but you make me very nervous!

17:39:12 From Dane Chandler -Tucson AZ to Everyone:
as if I needed additional proof, not going to turn one of them

17:39:32 From Bob Grinstead - Mansfield, Texas to Everyone:
Understand I think this is our 25 day over 100. This last two weeks its
been 108-109 way too hot

17:39:39 From Kade Bolger, Woodturner to Everyone:
Heather, Yes, I'm located in Whitby, which is about 45 min. s from Orillia, as long as I don't get stuck behind a Sunday Morning driver. lol.

17:39:49 From brenda thornton greenville ohio to Everyone:
i want to turn one.....someday

17:39:53 From Kade Bolger, Woodturner to Everyone:
45 min south of Orillia

17:40:11 From Doug Miller in Kentucky to Everyone:
I've got one sitting close to the lathe just for this.

17:40:21 From Dave Rhodes - Crescent City to Everyone:
When I add the video of the shattering of the bowling ball, I will add some animated fireworks, so people get the real feel of excitement (SMILE)

17:40:28 From Dane Chandler -Tucson AZ to Everyone:
it's been over 100 since April here

17:40:30 From Billy Burt (Alamo City) to Everyone:
I don't blame you, Dane. I had six of them saved up for pen blanks and gave them all away when I moved to this house in 2018.

17:40:32 From Tim Hatch Bastrop, TX to Everyone:
Heck that or his Sugar Hear Resin Mess....LOL... I don't need that kinds mess in the shop... LOL Bad enough with the wood and dust.. Old Lady would kill me

17:40:57 From Dave Rhodes - Crescent City to Everyone:
Son-of-a-gun spray

17:40:58 From Tim Hatch Bastrop, TX to Everyone:
Heart.. Resin

17:41:53 From Ron Radliff to Everyone:
<https://www.stp.com/product/son-of-a-gun-protectant/>

17:42:16 From Billy Burt (Alamo City) to Everyone:
LOL, Tim

17:42:42 From Scott Hampton to Everyone:
I find trans-tint pretty easy to keep consistent. I've created recipes so I remember the alcohol vs. dye amounts I use.

17:43:38 From Matt Harber to Everyone:
Good plan, Scott! Makes repeating something that works well easy... always keep records of what you do.

17:44:14 From Capt Eddie Castelin to Everyone:
Clear the screen of your shield using STP's Son-Of-A-gun vinyl protectant. Dust blows off and the static electricity is reduced. Try not to wipe off dust, dirt, or shavings. Son-Of-A-Gun can be purchased at auto part stores and Amazon.

17:45:02 From Doug Miller in Kentucky to Everyone:
Dryer sheets work well on shields as well.

17:45:39 From Capt Eddie Castelin to Everyone:
BTW, I've used shields for years before replacing them. I even use SOAG. on plexiglass windows and cycle windscreens

17:51:45 From Terry's iPad to Everyone:
Has anyone tried a coring tool

17:51:50 From Kade Bolger, Woodturner to Everyone:
Great point Eddie. You should not be able to fry an egg on your drill bit after drilling. You should be able to hold it without burning your hand.

17:52:33 From Dane Chandler -Tucson AZ to Everyone:
as in coring rig Terry? yes I use Oneway

17:54:11 From Billy Burt (Alamo City) to Everyone:
Terry may have been referring to using one on a bowling ball, Dane, but I can't be sure.

17:54:52 From Billy Burt (Alamo City) to Everyone:
Dave isn't lazy... he's a busy man...

17:54:53 From Doug Miller in Kentucky to Everyone:
Trent Bosch used to promote using a barrel boring bit that has channels running the length of the bit so that air is all the way down at the cutting point.

17:55:00 From Bob Moffett - N.C. to Everyone:
I think that is what he was asking. Could you use a coring tool on a bowling ball?

17:55:23 From Bob Moffett - N.C. to Everyone:
Trent still used that.

17:55:39 From Doug Miller in Kentucky to Everyone:
☐

17:55:53 From Dane Chandler -Tucson AZ to Everyone:
sure, I don't see why not....I wouldn't though....

17:56:10 From Billy Burt (Alamo City) to Everyone:
I don't think I would either, Dane.

17:57:18 From Kade Bolger, Woodturner to Everyone:
I wouldn't either. it will do a number on the tips. and the inside isn't as structured sound as the outside as we saw in the blow up.

17:57:37 From Kade Bolger, Woodturner to Everyone:
structurely

17:59:02 From SteveDurham to Everyone:
I arrived late, sorry. What is being made and what material? Thanks.

17:59:03 From Billy Burt (Alamo City) to Everyone:
I'm literally on the edge of my seat!

17:59:12 From Kade Bolger, Woodturner to Everyone:
it's more rubbery than resin like on the inside of this one. Unless you get a solid resin ball, then it may work. but careful of the heat build up or it will

blow up real good.

17:59:16 From Robert Hodge to Everyone:
Looks like a bowling ball to me

17:59:30 From Dane Chandler -Tucson AZ to Everyone:
there would be alot of friction from trying to core a BB. that would be my
primary hesitation to coring one.....along with all that "stuff" I'm not a
fan of solid resin turnings to begin with.

17:59:43 From Billy Burt (Alamo City) to Everyone:
It is, Robert

17:59:46 From Doug Miller in Kentucky to Everyone:
Yarn bowl from a bowling ball

18:00:02 From Steve Lackscheide to Everyone:
SteveDurham: Doug is turning a bowling ball into a yarn bowl.

18:00:12 From SteveDurham to Everyone:
thanks

18:00:35 From brenda thornton greenville ohio to Everyone:
i don't know which one to watch all of you waiting for it to blow up,,or
the bowl lmbo

18:03:35 From Scott Hampton-Visalia, CA to Everyone:
Dane, in my book if the blank is solid resin it should be called 'resin turning'.

18:03:54 From Patrick Hoggard NC to Everyone:
Not sure I would use a coring system on something like that, those cutters
are awful aggressive.

18:04:16 From Doug Miller in Kentucky to Everyone:
Robert Hodge, YT just told me that you said thanks. You're welcome.

18:04:35 From Robert Hodge to Everyone:
I was late...was a tenon turned between centers first? Or a wormscrew first?

18:04:47 From Dane Chandler -Tucson AZ to Everyone:
have to agree Scott

18:05:04 From Bob Moffett - N.C. to Everyone:
tenon

18:05:06 From Kade Bolger, Woodturner to Everyone:
Patrick. I hear that. I wouldn't either. too much friction

18:05:31 From Tim Hatch Bastrop, TX to Everyone:
Might be a good time for a Ball End Mill Tool to get the inside out...

18:05:32 From Kade Bolger, Woodturner to Everyone:
tenon turned between centres

18:05:43 From Doug Miller in Kentucky to Everyone:

Between centers

18:05:47 From Robert Hodge to Everyone:
Thanks Kade.

18:06:03 From Jacque Jecker to Everyone:
Five finger discount.

18:06:23 From Billy Burt (Alamo City) to Everyone:
That could work, Tim

18:06:36 From Dave Rhodes - Crescent City to Everyone:
August 10th, tips & tricks

18:07:00 From Robert Hodge to Everyone:
Well I just noticed a tip In the background...cutting the roll of paper towels in thirds

18:07:04 From Dane Chandler -Tucson AZ to Everyone:
ball end mill ball end mill ball end mill

18:08:47 From brenda thornton greenville ohio to Everyone:
matt likes the ball in mill lol

18:09:07 From brenda thornton greenville ohio to Everyone:
try market place too

18:09:34 From brenda thornton greenville ohio to Everyone:
or ask on face book or market place

18:09:50 From Billy Burt (Alamo City) to Everyone:
Bowling alley balls are cheap plastic balls. Not sure how they turn, but...

18:12:22 From Kade Bolger, Woodturner to Everyone:
they would turn just the same

18:13:59 From Dane Chandler -Tucson AZ to Everyone:
however keep in mind extended friction will create a void.....Doug found
this out a couple days ago on a plastic BB

18:15:49 From Robert Hodge to Everyone:
My very first YouTube video was of a bowling ball.....so messy!
https://www.youtube.com/watch?v=89Ea_tfскеQ&t=46s

18:18:06 From Billy Burt (Alamo City) to Everyone:
I've been called to dinner. I'll come back on inside.

18:18:22 From Tim Hatch Bastrop, TX to Everyone:
Enjoy Billy Talk to you later

18:20:35 From Kade Bolger, Woodturner to Everyone:

18:20:51 From SteveDurham to Everyone:
what material was used to plug the finger holes?

18:21:11 From Tim Hatch Bastrop, TX to Everyone:
Well RONA is Kicking My But.... Great Demo Doug..... I'm Headed to Bed...
Ill Watch the rest on the Re-Run when Dave post it... Night All

18:21:37 From Heather Spiritwynd to Everyone:
nite Tim!

18:21:38 From Dane Chandler -Tucson AZ to Everyone:
get well won tim

18:21:39 From jim selby jacksonville fl to Everyone:
Get Well, Tim

18:21:44 From Tim Hatch Bastrop, TX to Everyone:
Thanks

18:21:51 From Kade Bolger, Woodturner to Everyone:
Night Tim

18:21:53 From Doug Miller in Kentucky to Everyone:
He cut the finger holes off. Only the thumb hole remains

18:22:25 From SteveDurham to Everyone:
thanks, makes sense

18:22:42 From Dane Chandler -Tucson AZ to Everyone:
thumb hole will be used as the "hole" for the yarn

18:22:56 From SteveDurham to Everyone:
☐

18:22:57 From Bray's Woodturning to Everyone:
I wonder if you could use a coring system to remove the inside?

18:23:32 From Dane Chandler -Tucson AZ to Everyone:
I'd be worried of the extreme friction created Greg

18:26:19 From SteveDurham to Everyone:
Can I plan on seeing the finished bowl in gallery next week?

18:26:23 From Kade Bolger, Woodturner to Everyone:
Me too, I wouldn't, resins are very brittle with excessive friction
and heat. It would be a very violent blow up.

18:26:31 From Scott Hampton-Visalia, CA to Everyone:
This Saturday, be sure to check out the FREE all-day 'Virtual Crafters Fair'

on YouTube. Follow this link <https://youtu.be/PoF4hW66up0> to be taken to my channel where I have put in my video description the list of sixteen crafters, the time schedule, and the links to their YouTube channels. My presentation is from 4:00 pm to 5:00 pm pacific time. I hope to see you there.

18:27:16 From Robert Hodge to Everyone:
I'll be missing the Virtual Craft Fair as I'm taking a Pyrography class through local club with Janice Levi.

18:27:33 From Billy Burt - Alamo City, Texas to Everyone:
Y'all excuse me while I stuff my face with this homemade chicken noodle soup!

18:27:59 From Dane Chandler -Tucson AZ to Everyone:
stuff away

18:28:34 From Billy Burt - Alamo City, Texas to Everyone:
Janice is amazing, Robert

18:29:12 From Robert Hodge to Everyone:
Yes she is Billy. I see her turnings all the time and her pyrography is incredible.

18:29:31 From Scott Hampton-Visalia, CA to Everyone:
Robert, a lot of the crafters record their presentations to watch later on their YouTube channels.

18:29:46 From Heather Spiritwynd to Everyone:
can I ask why you would turn the outside at all? except for turning the tenon, it just seems like you're adding extra time to the finishing process

18:29:47 From Matt Harber to Everyone:
True ... Janice is a great artist and a fun person. And I love how she highlights her pyrography..... the way she uses white...

18:29:48 From Doug Miller in Kentucky to Everyone:
Great thing about virtually crafty is that if you have to miss it you can go back later and watch each of the contributors.

18:30:53 From Billy Burt - Alamo City, Texas to Everyone:
Heather, I think he said because he wants a slightly different shape.

18:30:57 From Dane Chandler -Tucson AZ to Everyone:
to get a different shape is all Heather

18:31:01 From Doug Miller in Kentucky to Everyone:

Heather you don't have to unless you want to get rid of all the marks that are on the surface

18:31:15 From Heather Spiritwynd to Everyone:
thanks ☐

18:31:35 From Robert Hodge to Everyone:
Ta da!

18:31:43 From Billy Burt - Alamo City, Texas to Everyone:
launch!

18:31:46 From Doug Miller in Kentucky to Everyone:
The one I'm going to turn has dents and chips all over. I'll want to get rid of them.

18:31:47 From Dane Chandler -Tucson AZ to Everyone:
and when you dont get it perfectly aligned axially, then it is needed

18:31:53 From James Desbrow to Everyone:
looking for a good vacuum for lathe work. Any ideas?

18:33:02 From Matt Harber to Everyone:
James, do you mean a vacuum chucking system to use to hold pieces onto the lathe?
I have (and love) the Frugal Vacuum system..... with modifications.

18:33:36 From Matt Harber to Everyone:
Dane, I have a piece for gallery, when we get back there...

18:34:02 From James Desbrow to Everyone:
Yes. But the Frugal Chuck companyy is out of business.

18:34:04 From Billy Burt - Alamo City, Texas to Everyone:
James, like Matt, I have and LOVE my Frugal Vacuum chuck! I have a few recent YouTube vids on making the faceplates and chucks.

18:34:35 From Robert Hodge to Everyone:
Oh man! He's out of business?! I see his website was active not too long ago

18:34:43 From Billy Burt - Alamo City, Texas to Everyone:
What?!? I was just on his website a week or so ago

18:35:00 From Matt Harber to Everyone:
If Frugal's site is still up, he had some great video there on how his system worked....

18:35:07 From jim selby jacksonville fl to Everyone:
entertaining

18:35:16 From Scott Hampton-Visalia, CA to Everyone:
No they are still in business.<https://www.frugalvacuumchuck.com/>

18:35:26 From Robert Hodge to Everyone:
I see he's out of stock on some sort of pump

18:35:37 From James Desbrow to Everyone:

The site is still there but you cant order any theng.

18:36:45 From Matt Harber to Everyone:

The vacuum pump has always been his critical supply item - he buys them used and refurbishes them, they are top quality. He must be having trouble getting them. Call him directly and get on his list....

18:36:56 From huck joe kansas to Everyone:

Great demo Doug. Most of us have made up our minds if we ever want to try this. Thanks for showing us what to look for.

18:36:59 From Scott Tague Wisconsin to Everyone:

Thanks Doug

18:37:41 From Robert Hodge to Everyone:

Dang....was hoping he would show up on the SWAT vendors list this year. Vacuum chuck was on my shopping list

18:38:12 From Billy Burt - Alamo City, Texas to Everyone:

He still has some stuff for sale according to what I'm looking at

18:38:23 From Matt Harber to Everyone:

Great demo Doug, I've learned some things. I appreciate it!

18:38:34 From James Desbrow to Everyone:

He said he is going to take this year off and be there next year as a spectator.
