15:42:28 From David j Edwards Michigan:
Hello Everyone

15:44:47 From Neil Mack Florida:
Eddie your breaking up

15:45:09 From Neil Mack Florida:
We see 2 pictures of you

15:50:46 From Henry Hogge:
Hello everyone!

15:51:00 From Donald Masterton Lara Vic Australia:
hi all

15:51:23 From Susan's iPad:
Hi Everyone!

15:52:15 From Richard Henke:
Hi everyone

15:52:21 From brenda thornton greenville ohio:
hi susan

15:56:04 From huck joe kansas:
Hello to all ! I hope everyone had a GREAT WEEK.

15:56:30 From Kade Bolger, Woodturner:
good day all

15:58:43 From Matt Harber:
Here's one link:

15:59:09 From Matt Harber:
Search on YouTube for "Virtual Craft Festival"

15:59:24 From Gary in Oklahoma City:
I have a couple items to show

16:07:15 From Dane Chandler -Tucson AZ:
if you have items you'd like to show put it in gallery

16:08:32 From Ron Vincent in Wyoming,mi:
I ha e something

16:14:59 From Scott Tague Wisconsin:
I have something to show

16:17:13 From Bob Grinstead - Mansfield, Texas:
I have a few items

16:20:55 From Scott Tague Wisconsin:
That nice Dane

16:22:15 From grisw:
dane how do you sand & finish the inside its great i'm learning

16:23:49 From Jim Duxbury .:
I could show

16:24:13 From Matt Harber:
You can get a great interior finish on hollow forms with a pear
or circle scraper....

16:25:24 From Dane Chandler -Tucson AZ:
I can show the cutters i use if interested

16:25:36 From Bray's Woodturning:
I have something Greg Bray

16:26:14 From Matt Harber:
I'd like to see the cutters you use, Dane...

16:27:43 From Dane Chandler -Tucson AZ:
ok

16:30:31 From Doug Rowe:
Just wanted to pop in and say hi to everyone. I can't stay on tonight
due to having to get prepared for my art show and school starting. I have
been moved from teaching art to teaching 7th grade social studies.

16:30:47 From Doug Miller:
Hi Doug

16:31:26 From Matt Harber:
Hi Doug!

16:31:35 From Doug Rowe:
I did finish the yarn bowl. It's on my Facebook

16:31:47 From Matt Harber:
It looks great! Well done!

16:32:27 From Doug Miller:
Saw earlier. Pretty cool. When this thumb heals up I'll work on the
bowling ball I have.

16:33:55 From SteveDurham:
Starch for cloth napkins

16:34:28 From Michelle Kouri:
Cloth napkins would be too flimsy and too "sophisticated". Paper napkins are perfect for this as it's more of a party or casual presentation. Looks great.

16:35:10 From Matt Harber:
Great insight, Michelle! □

16:35:45 From grisw:
dane how fast do you turn aT WITH A HOLLOW FORM

16:40:11 From larry canterbury,Ohio:
Dane what's the holder you have for the lathe bits?

16:42:47 From Joaquin Juatai:
I have a couple pieces

16:48:46 From Dave Rhodes - Crescent City:
Question about Lacquer and Acrylic. Can I do dot-painting and cover with acrylic? How about vise-versa, can I have a lacquer covered items, and then do dot-painting with acrylic?

16:50:24 From Kade Bolger, Woodturner:
Paint may not stick to a lacquered or finished surface. I would put the lacquer or finish over the paint

16:50:48 From Dave Rhodes - Crescent City:
Thanks Kade

16:51:14 From Doug Miller:
Yes you can. I would suggest sealing the acrylic paint before coating with acrylic finish.

16:52:06 From Matt Harber:
I have only painted with acrylic paints, india ink, and alcohol stains. I typically will use sanding sealer on the surface, to seal it, then sand that back, then paint. I have successfully coated painted surfaces with light coats of lacquer, polyurethane, and acrylic finish.

16:54:57 From Dave Rhodes - Crescent City:
Thanks Matt

16:55:15 From Dave Rhodes - Crescent City:
Thanks Doug

17:03:12 From jim selby jacksonville fl:
Whats the difference olive ash and regular ash?

17:03:21 From SteveDurham:
spin the bottle with a top

17:04:19 From Matt Harber:
☐ ☐

17:05:28 From SteveDurham:
nothing up his sleeves

17:05:49 From Michael Stratton:
What did Kade say. ☐

17:06:23 From Matt Harber:
.. or you drop your skew ,point down....

17:07:17 From Joaquin Juatai:
Were you watching me yesterday?

17:08:13 From Joaquin Juatai:
No, that was for Matt. I dropped my skew yesterday.

17:09:18 From Matt Harber:
LOL! I am pretty sure it's one of the Murphy's Law corollaries... a dropped tool will always fall with the point down or where it can do the most damage.

17:09:54 From capn Eddie:
I dropped my skew one sunday evening,blew the main for the house, was also at the same time that the Super Bowl lost lighting. I had nothing to do with that.

17:10:20 From Matt Harber:
☐ ☐ That's epic, Eddie!

17:11:10 From Jay - Prescott, Az:
The odds of your tool falling point side down is directly proportionate to the cost of the tool

17:20:04 From John Scelfo New Jersey:
Why not put your spur drive in the chuck to save some time?

17:22:43 From Dane Chandler -Tucson AZ:
richard raffan called & said he wants his BG back!

17:23:17 From Doug Miller:
If your spur doesn't have the softer dark metal section just for inserting into a chuck, you can, over time, cause damage to the jaws. Also, if you have a solid taper all the way up you don't have a flat for the jaws to register on, allowing the spur drive to wiggle, again causing damage over time.

17:23:26 From Dane Chandler -Tucson AZ:
not all spur drives are made where the can be mounted in a chuck

17:29:07 From Matt Harber:
I completely concur with this philosophy! Sand as little as possible!

17:30:17 From Billy Burt - Alamo City, Texas:
Almost looks like Wenge!

17:30:57 From Dane Chandler -Tucson AZ:
amen. put the time in to sharpen correctly & using proper tool control/presentation to get a great tool finish

17:31:30 From Dane Chandler -Tucson AZ:
I'd rather by tools than sandpaper!

17:43:06 From Billy Burt - Alamo City, Texas:
Kade, do you roast your own Ash, or buy it?

17:43:22 From SteveDurham:
Hmmmmm.....I have way too much money in a dust collection system to NOT use it.□

17:45:54 From capn Eddie:
I think he preferred not to use it because he is using an area Mic.

17:49:05 From Tommy Schutz:
When he used the roughing gouge to cut the base, was that end grain or face grain

17:49:25 From Scott Hampton:
Hi Everyone. Sorry about my tardiness to the meeting, but I finally made it in.

17:50:03 From Dane Chandler -Tucson AZ:
Scott, you owe us 100 lines for tardiness

17:50:24 From Billy Burt - Alamo City, Texas:
LOL, Dane

17:50:55 From capn Eddie:
Members, put on your face mask. Tim Hatch is in the gang.

17:50:55 From Scott Hampton:
□ □ □

17:51:07 From Heather Spiritwynd:
oh crap! I'm not going to tell you that I just got here too!□

17:51:08 From Tim Hatch Bastrop, TX:

Good evening all.... Looks like I'm not the only one who is late...

17:51:24 From Dane Chandler -Tucson AZ:
u 2 heather

17:52:07 From Billy Burt - Alamo City, Texas:
Oops?

17:52:10 From Heather Spiritwynd:
I completely forgot!

17:52:34 From Harold Mills, OP FL:
what was the dia of the forstner bit he used?

17:52:47 From capn Eddie:
7/8"

17:52:48 From Heather Spiritwynd:
and I'm at home tonight, not working for a change

17:53:16 From brenda thornton greenville ohio:
7/8 th I think

17:53:38 From Harold Mills, OP FL:
thanks

17:53:52 From Doug Miller:
Hi Heather

17:54:39 From Heather Spiritwynd:
hi Doug ☐

17:57:20 From Gordon Kincheloe-Alamo Woodturners:
What was the Forstner bit size for inside cup and depth cut?

17:58:24 From Bob Grinstead - Mansfield, Texas:
7/8" AND 1/8" I THINK

18:08:39 From Dane Chandler -Tucson AZ:
correct Bob. for the depth 1/8 - 3/16 is the idea

18:08:45 From Billy Burt - Alamo City, Texas:
Ok, folks, time to go. Need pain pills from my oral surgery today.

18:09:18 From jim selby jacksonville fl:
nnitr Billy

18:09:27 From Dave Rhodes - Crescent City:
Good night Billy

18:09:31 From Tim Hatch Bastrop, TX:
take care Billy

18:10:08 From Scott Hampton:
Billy has left the building.

18:10:48 From Gary Bobenhausen-Corinth, Texas:
Are you going straight in with tool or is handle down?

18:11:10 From Dane Chandler -Tucson AZ:
handle is up

18:13:39 From Jim Duxbury .:
That was defective wood

18:14:07 From Dane Chandler -Tucson AZ:
ash, too many pores, lol

18:16:46 From Dave Rhodes - Crescent City:
You do such beautiful work Kade !!!

18:17:16 From Tommy Schutz:
I agree

18:18:35 From SteveDurham:
also work well for those close but too small tenons.

18:20:49 From John Scelfo New Jersey:
You have enough material there to make a handle, if you wanted!

18:23:39 From SteveDurham:
the rubber bands on bunches of vegetables and/or lobster claws are wider
and will hold as well if not better

18:24:11 From Dane Chandler -Tucson AZ:
that's where I get my bands from

18:25:26 From Scott Hampton:
You want to keep the rubber bands a little loose. If they're tight
they might collapse the wood.

18:33:49 From SteveDurham:
maybe I ought to move to Canada and apprentice....

18:37:04 From Matt Harber:
Bingo!

18:37:15 From Tim Hatch Bastrop, TX:
Nice Job Kade

18:37:25 From John Scelfo New Jersey:
Nice!

18:37:25 From jim selby jacksonville fl:
Sweet!!!!

18:37:26 From Don Francis- Northern IL:
excellent demo!

18:37:27 From Doug Miller:

Excellent Kade

18:37:32 From Dave Kingsley - Lakewood NY:
Craftsmanship!

18:37:44 From SteveDurham:
Excellent Instructor

18:37:47 From Tom Kenny - Tallahassee, FL:
Very well done!

18:38:07 From Scott Tague Wisconsin:
Nice job Kade

18:38:33 From Stephen Makuka:
Thanks Kade. Great demo. Really nice wood turned toy!

18:38:50 From Dave Rhodes - Crescent City:
Great demo

18:39:36 From huck joe kansas:
Great job Kade. You make things look easy. Thank you for another Great Demo.

18:40:08 From Waukeene Vinson, CC, Texas:
Fantastic Demo Kade

18:40:42 From Dane Chandler -Tucson AZ:
to clarify for when the craper is used, the scraper handle is raised..
.with the cutting taking place on or just above center. .same as when
you use it any other time

18:41:26 From Doug Miller:
□ □ □ □ □

18:42:41 From Dane Chandler -Tucson AZ:
from a different question earlier kade

18:47:12 From Matt Harber:
I've got one parting tool with a slight angle, and I love it!

18:47:28 From Dane Chandler -Tucson AZ:
me 2

18:47:37 From Glenn Dornak:
I have something to show

18:48:40 From Gary in Oklahoma City:
I think we need to double his fee

18:48:54 From Gary in Oklahoma City:
great

18:48:55 From Tommy Schutz:
Great demo kade

18:48:58 From Dane Chandler -Tucson AZ:
I did

18:49:08 From Tommy Schutz:
Thanks for sharing yourself

18:49:39 From Tommy Schutz:
You have a world of knowledge and excellence

18:49:42 From brenda thornton greenville ohio:
thanks Kade ☐ ☐

18:50:02 From Michelle Kouri:
Really, really good instructor. Thank you. Great demo

18:50:24 From Harold Mills, OP FL:
Great demo Kade

18:51:38 From Gary Bobenhausen-Corinth, Texas:
Thanks Kade. I really appreciate your detailed usage on
how to position the tool.

18:55:34 From brenda thornton greenville ohio:
i showed mine earlier but not many were on yet, if we have
time ill show them again

18:57:41 From David j Edwards Michigan:
Good Night Everyone

19:00:44 From jim selby jacksonville fl:
nite all

19:01:01 From Tim Hatch Bastrop, TX:
Good night All... Thanks for the Demo Kade

19:01:31 From huck joe kansas:
Good Night all. Great meeting again.

19:01:46 From Dave Rhodes - Crescent City:
Good night all!! Thanks for the evening !!

19:01:51 From Heather Spiritwynd:
night all
