16:28:00 From Matt Harber:  
Howdy all....

16:28:54 From roger wollam Kahoka Mo:  
I have a piece to show also

16:31:08 From Billy Burt - Alamo City, Texas:  
matt

16:31:13 From Billy Burt - Alamo City, Texas:

Matt even

16:31:30 From Andy Schuster:  
Hey Matt

16:31:45 From Matt Harber:  
LOL! Hi Andy and Billy!

16:32:32 From Karl Geary outside Atlantic City-NJ:  
What is the purpose of grinding off the ends of a roughing gouge?

16:33:06 From Matt Harber:  
So you don't catch the flutes when you roll it on the side to slice..  
..

16:33:21 From Tim Hatch Bastrop, TX:  
Keeps you from bruising the wood with the bottom of the gouge...

16:35:25 From Dave Rhodes - Crescent City:  
I have something to show

16:41:02 From Billy Burt - Alamo City, Texas:  
It isn't the volts that kill you... it's the amps!

16:57:44 From Tom Kenny - Tallahassee, FL:  
I have something to show.

16:58:00 From Bill Louch, Hudson Quebec:  
I have a couple of things to show. Bill Louch

17:02:52 From Scott Hampton, Sequoia National Park:

17:10:28 From Andy Schuster:  
night guys, beddie bye time

17:10:39 From Tim Hatch Bastrop, TX:  
Good night Andy

17:32:51 From Billy Burt - Alamo City, Texas:  
Did he say which hollowing system he's using?

17:33:13 From jim selby jacksonville fl:  
trent bosch

17:33:17 From Bob Moffett:  
Trent Bosch's system

17:33:25 From Scott Hampton, Sequoia National Park:  
It's the Tent Bosch Elbo Hollowing System.

17:33:30 From Billy Burt - Alamo City, Texas:  
Thank you, Bob

17:34:04 From Billy Burt - Alamo City, Texas:  
I thought it might be

17:38:39 From Billy Burt - Alamo City, Texas:  
His laser rig is better than mine. Mine has a tendency to bounce.

17:41:46 From Tim Hatch Bastrop, TX:  
I recently received an Elbo Tool (Original) like you have Billy.. I'm gonna have to modify it a little to make it more like the Elbo 2 or Trent Bosch's system.... the length is too long to fit on my Jet 1221 VS.. Had the Tail Stock all the way back and was barely able to articulate the arm... But I'll figure it out..

17:42:44 From Tim Hatch Bastrop, TX:  
Guess that gives me another reason to convince the wife I need the Powermatic 2014...LOL

17:43:18 From David Carter:  
I tried several different lasers on mine but they all shook and vibrated too much for me. I replaced it with a camera system that works better for me

17:43:42 From hwkin:  
Howard King, Cullman, AL Take the Tail Stock off

17:45:37 From Tim Hatch Bastrop, TX:  
Great idea Howard I like where your going but the original needs the tail stock to mount the elbo to... Im working on a rig to make a modification to the way the Elbo mounts to the bed ways.

17:46:56 From hwkin:  
Howard King, Sorry, I didn't realize that the Elbo Hollowing system is attached to the Tail Stock. Tim Yoder

17:47:34 From Tim Hatch Bastrop, TX:  
LOL True Bob... True.. trying to convince the wife to get me a new la the...LOL.. by the way it works like a dream on what I was able to use it for...

17:47:47 From Semi-Pro Turner:  
The one i used to make had a mount to the bedstock, wiith a fixed height

17:48:08 From hwkin:  
Howard King, Tim Yoder's laser system is the best

17:48:42 From Billy Burt - Alamo City, Texas:

His new one looks great, Howard.

17:49:25 From Billy Burt - Alamo City, Texas:  
He didn't have one when I bought mine. He told me to get the one Ron Brown was selling so I did.

17:49:52 From Billy Burt - Alamo City, Texas:  
It works, but I feel like the aluminum tubes aren't rigid enough.

17:50:48 From Bob Grinstead - Mansfield, Texas:  
Dean's sanding stick would sand it right out.

17:50:49 From hwkin:  
Howard King I have something to show

17:51:41 From Matt Harber:  
I have one similar to Lyle Jameison's system. It works well.

One of the keys is to get a good cutter on the end. I highly recommend the AZ Carbide "little hogger"

17:52:04 From huck joe kansas:  
I have to leave till next week. You all take care and safe. Good Night.

17:52:45 From Matt Harber:  
Yoder's system is an elbow system also, similar to the Bosch one....

17:54:20 From Billy Burt - Alamo City, Texas:  
Yes, Matt

17:58:30 From Scott Tague Wisconsin:  
Thanks for the demo Bray

17:58:38 From Tim Hatch Bastrop, TX:  
I can show how I plan on modifying my elbo tool.... if you would like  
.

18:01:07 From Bob Prichard:  
Thanks for the demo. It is good to see that you don't have any horizontal space free to stack anything else on. :)

18:01:44 From Matt Harber:  
☐ ☐ just like MY shop....

18:03:06 From Bob Prichard:  
Where are you located? State

18:04:08 From Tim Hatch Bastrop, TX:  
Thanks Greg.. Awesome video

18:04:19 From Tim Hatch Bastrop, TX:  
and demo

18:04:41 From Bob Moffett:  
Thanks Greg. Great Demo

18:11:50 From Bob Grinstead - Mansfield, Texas:  
Greg what state are you in?

18:13:45 From Ron Radliff; Sedro-Woolley, WA:  
Frog

18:14:57 From Bob Grinstead - Mansfield, Texas:  
Lert see Tims idea for the elbo

18:15:41 From Matt Harber:  
I had trouble searching/finding it as "frog" .... the word I was looking for was "ikebana"....

18:19:09 From Tom Kenny - Tallahassee, FL:  
I have one more item to show.

18:22:35 From John Webber:  
I have something

18:25:37 From Bob Grinstead - Mansfield, Texas:  
Terry's IPAD has something

18:25:44 From Martin Clarkson:  
can I come in on what tom was saying

18:25:57 From hwkin:  
Howard King, I have something to show

18:27:12 From Bob Moffett:  
What is the parfex that you use on pens and how is it different from 3408?

18:28:08 From Karl Geary outside Atlantic City-NJ:  
parfix 3460 for pens

18:30:31 From Waukeene Vinson, CC, Texas:  
I've got ssomething

18:33:46 From Matt Harber:  
LOL!

18:33:55 From Matt Harber:  
Very nice, Waukeene!

18:34:48 From Bob Moffett:  
What is the difference between parfix 3408 and 3460?

18:35:04 From Waukeene Vinson, CC, Texas:  
Thanks Matt

18:36:53 From Matt Harber:

ANOTHER great idea, Martin! Wow.... great effect...  
Would a nail punch work?

18:37:27 From Bob Grinstead - Mansfield, Texas:  
Thanks Martin for the idea. I'll have to try it.

18:38:12 From Tim Hatch Bastrop, TX:  
Nice Technique... might use some chain as a technique.. my brother used  
to do something similar for his rustic furniture....but not raise the  
grain afterwards...will have to give this a try..

18:44:45 From Ron Vincent in Wyoming,mi:  
maybe use one of the dot painting balls the larger sizes

18:46:45 From Patrick Hoggard:  
You're not fracturing the grain, you're compressing the grain.

18:48:09 From Matt Harber:  
Good idea, Ron!

18:48:19 From Matt Harber:  
Thanks, Patrick....

18:48:43 From Tim Hatch Bastrop, TX:  
Thanks Martin... Awesome

18:49:17 From Scott Tague Wisconsin:  
Thanks Martin

18:52:18 From Doug Rowe:  
Hey all

18:52:46 From Doug Rowe:  
If there's time I made a bowl this week.

18:53:03 From Waukeene Vinson, CC, Texas:  
THANKS FOR THE CHALLENGES, MARTIN

18:55:13 From Matt Harber:  
Lots of interesting possibilities...

18:56:21 From Bob Grinstead - Mansfield, Texas:  
great I need more 3408

19:00:10 From David j Edwards Michigan:  
Good Night Everyone

19:00:30 From Tim Hatch Bastrop, TX:  
Good Night All...

19:00:44 From Billy Burt - Alamo City, Texas:  
Night, everyone

19:01:04 From Terrell Brace, (Southern Indiana):  
Nite All!

19:01:36 From jim selby jacksonville fl:  
night all

19:02:10 From Dave Rhodes - Crescent City:  
Night all
