breaker in the owners manual..

17:06:35 From Robin's Buys And DIYs to Everyone:
Yayyyyyy Billy!!!!

17:07:37 From Tim Hatch Bastrop, TX to Everyone:
or try troubleshooting on line... Silly Question cause I don't know your shop..
is there a GFI Plug attached to your outlet or in the line the outlet comes from...
I have two in my shop I did not know about until I lost power.. it was in my master bath..LOL

17:10:57 From Matt Harber to Everyone:
Which lathe? Any error codes on the motor/inverter/display?

17:11:15 From Robin's Buys And DIYs to Everyone:
Nice up close view, Billy!!!

17:11:53 From Matt Harber to Everyone:

I have a Powermatic 3520B. When a power surge causes a problem, I unplug my lathe for 5 minutes, make sure everything is off, then plug it back in and turn things on.

17:12:16 From Tom Kenny - Tallahassee, FL to Everyone:

<https://www.youtube.com/watch?v=eUM2lqjmzrE>

17:13:20 From Ron Vincent Wildwood, FL to Everyone:

Need help. Mt lathe quit today. Last week it stopped a couple times and I had to shut it off and restart it. Sometimes it run for 5 minutes other times the rest of the day. It's a G0766 3 HP 3 phase run thru a converter to 220 single phase. Today it stopped and won't spin at all. Motor is about 105 degrees so not hot. Didn't make any noise at all.

17:16:02 From Robin's Buys And DIYs to Everyone:

That's so cool, Billy!!

17:16:19 From Robin's Buys And DIYs to Everyone:

You make it look easy

17:17:18 From Robin's Buys And DIYs to Everyone:

They asked if you use a laser

17:17:19 From Heather-Spiritwynd Wood Stone and Bone to Everyone:

I bought the hollow master also.the blades are horrible and I can't sharpen them no matter how hard I try!

17:18:41 From Matt Harber to Everyone:

Heather, might be tool presentation angle.... You might be hitting the bevel, instead of actually cutting/scraping with the tool edge.....

17:20:28 From Heather-Spiritwynd Wood Stone and Bone to Everyone:

that's possible Matt . I was wondering if I could try a carbide cutter on it

17:24:12 From Matt Harber to Everyone:

On my own hollower (captured system, similar to Lyle Jamieson's), I replaced the cutter with AZ Carbide's "Little Hogger", which is a small cup cutter set at a 45° angle. I love it, it's a lot quieter and cuts streamers instead of scraping....

17:25:49 From Ron Radliff: Sedro-Woolley, WA to Everyone:

Tim Yoder also makes a laser attachment to fit the Elbo.

<https://wtwtim.com/elbo-laser-guide/>

17:27:30 From Tim Hatch Bastrop, TX to Everyone:

Good looking rig but Ouch... Think I will Frankenstein one of my own with a cat laser...LOL...Got to save my pennies for a bigger lathe

17:29:46 From Heather-Spiritwynd Wood Stone and Bone to Everyone:

thanks Matt! I'll look into that
