16:54:26 From Heather Budarick To Everyone:
iv got a question for the group.

what makes a professional woodturner??

16:54:56 From Matt Harber To Everyone:

Bottom line, you get paid for your turnings...

16:55:06 From Matt Harber To Everyone:

... Or your teaching.

16:55:14 From Doug Miller in Kentucky To Everyone:

Heather, if youre making your living with your turning

16:55:59 From Heather Budarick To Everyone:

all of the above? lol

16:56:22 From Heather Budarick To Everyone:

one out of 3 isn't bad

16:57:05 From Safety Sue Largo To Everyone:

Bob Moffet is in the house so now I would like to show
my birdhouse

16:57:33 From Matt Harber To Everyone:

LOL! Yep. Arguably, if someone else pays you for your work or
your time, then you're a professional.

If people request you to do demos or request custom work, then
you have graduated to "recognized" professional....

16:59:14 From Craig To Everyone:

I'm new here tonight. wanted to say howdy.

16:59:41 From Doug Miller in Kentucky To Everyone:

17:06:31 From Jim Duxbury . To Everyone:

Look at the angle his tool is sharpened at

17:08:57 From Bob Grinstead - Mansfield, Texas To Everyone:

his tool cuts like a skew but is very hard to get a catch. 3/8" spindle gouge

17:09:14 From Billy Burt - Alamo City, Texas To Everyone:
My car broke down... the dog ate my homework... it's my wife's fault... yeah
that's it... that's my story and I'm sticking to it...

17:09:26 From Bob Grinstead - Mansfield, Texas To Everyone:
with the back ground off

17:09:36 From Tim Hatch Bastrop, TX To Everyone:
Welcome Billy

17:09:44 From Billy Burt - Alamo City, Texas To Everyone:

sounds good to me, Billy. I got you.

17:10:16 From Scott Tague Wisconsin To Everyone:
Hi Billy

17:11:02 From Matt Harber To Everyone:
Haaa! Billy, based on what I've seen on facebook over the last several
days, you got lost in the shop, turning, and lost track of time.
You've been cranking things out!

17:12:33 From Billy Burt - Alamo City, Texas To Everyone:
I wish, Matt!

17:21:28 From Matt Harber To Everyone:
Some of the best snowmen only have 2 balls and a hat...

17:21:55 From Doug Miller in Kentucky To Everyone:
I was thinking the same thing. I prefer 2

17:22:13 From Billy Burt - Alamo City, Texas To Everyone:
I do both depending on my mood

17:22:33 From Billy Burt - Alamo City, Texas To Everyone:
But two is easier and faster, of course

17:22:34 From Doug Miller in Kentucky To Everyone:
Sure. There is no hard and fast rule

17:25:08 From Captain Chaos To Everyone:
The two ball snowman looks like me. A head and lots of belly and
butt below it. Three balls means healthy

17:25:56 From Doug Miller in Kentucky To Everyone:

17:26:27 From Matt Harber To Everyone:
To be fair, there is a light-hearted but enthusiastic and energetic
argument going on online about 2 balls versus 3 balls.

17:31:39 From Captain Chaos To Everyone:
Boy,, I'm glad we are rated PG

17:32:19 From Matt Harber To Everyone:
Some of the messages are pushing it..... LOL!

17:33:05 From Doug Miller in Kentucky To Everyone:
Only for the dirty minded

17:33:13 From Matt Harber To Everyone:
I love that tool....

17:33:58 From Bob Grinstead - Mansfield, Texas To Everyone:
his tool is great & easy to make

17:34:30 From Bob Grinstead - Mansfield, Texas To Everyone:

17:36:51 From brenda To Everyone:

they are looking for as many as they can get and from as many different
places.address is Hibberd Building Wampler 900 s. L st. Richmond ind. 47374

17:37:43 From Billy Burt - Alamo City, Texas To Everyone:
Just like a wood plane

17:38:32 From Billy Burt - Alamo City, Texas To Everyone:
Is that a 3/8" gouge?

17:38:36 From Matt Harber To Everyone:
Did he say what the wood he was using is?

17:38:45 From Bob Grinstead - Mansfield, Texas To Everyone:
2/4 pine

17:38:46 From brenda To Everyone:
2x4

17:38:56 From Matt Harber To Everyone:
Ah, right, thanks!!

17:38:59 From Billy Burt - Alamo City, Texas To Everyone:
construction material, Matt

17:39:15 From Bob Grinstead - Mansfield, Texas To Everyone:
yes it is a 3/8" spindle gouge

17:39:22 From Billy Burt - Alamo City, Texas To Everyone:
Thanks, Bob

17:39:34 From Tres's iPad To Everyone:
I use both 3/8 and 1/2. Both work great

17:39:47 From Bob Grinstead - Mansfield, Texas To Everyone:
yes

17:40:03 From Johnny Hughes To Everyone:
Ripped 2x4 = 1.5 x 1.5"

17:40:04 From Matt Harber To Everyone:
I think the one I reground was 1/2"

17:41:32 From Jim Duxbury . To Everyone:
Also that grind can not be made with a tool holder. It is free hand.

17:42:09 From Bob Grinstead - Mansfield, Texas To Everyone:
he is cutting on the bottom half of the edge

17:42:23 From Bob Grinstead - Mansfield, Texas To Everyone:
kinda like skew

17:43:32 From Matt Harber To Everyone:
Yup, a shearing/slicing cut. This is a wonderfully versatile tool.
I use mine all the time for all sorts of things.

17:44:02 From Bob Grinstead - Mansfield, Texas To Everyone:
I do too. great tool

17:44:05 From Tres's iPad To Everyone:
I find that is easy to get on a belt sander. One or two inch belt

17:44:45 From Captain Chaos To Everyone:
Thanks Tres, exactly. And you have better control on the grind

17:45:53 From Matt Harber To Everyone:
I really like that bell....

17:46:08 From Bob Grinstead - Mansfield, Texas To Everyone:
yes very nice bell

17:46:09 From Billy Burt - Alamo City, Texas To Everyone:
Me too, Matt

17:51:06 From Tim Hatch Bastrop, TX To Everyone:
My Pleasure....

17:51:10 From Doug Miller in Kentucky To Everyone:
Question for the chat: How do shavings get into the smock pocked with a flap over the opening?

17:51:34 From Bob Grinstead - Mansfield, Texas To Everyone:
don't know I sew mine shut....

17:51:39 From Patrick Hoggard To Everyone:
Very carefully.

17:51:55 From Heather Budarick To Everyone:
same way they get in your pants?!

17:51:56 From Matt Harber To Everyone:

17:52:05 From Matt Harber To Everyone:
And "other places"

17:52:14 From Tim Hatch Bastrop, TX To Everyone:
They hit the underside of the pocket top and crawl their way up...LOL...

17:52:20 From Captain Chaos To Everyone:
I put a strip of tape over mine, keeps shavin's out of my candy bars.

17:52:33 From Tim Hatch Bastrop, TX To Everyone:
LOL

17:52:40 From Jim Duxbury . To Everyone:
If he puts a curl on the top I will quit

17:52:43 From Heather Budarick To Everyone:

17:52:45 From Matt Harber To Everyone:

17:52:52 From Chris Bailey To Everyone:
I double stick tape all my pockets closed

17:52:58 From Matt Harber To Everyone:
LOL, Jim!!

17:53:50 From Billy Burt - Alamo City, Texas To Everyone:
You and me both, Jim!

17:54:12 From Bob Moffett To Everyone:
I wear a Tee Shirt, then I don't get shavings in my smock pocket.

17:54:16 From Doug Miller in Kentucky To Everyone:
I was thinking abuot the DQ curl. Very happy Mark hasn't figured that one out.

17:54:23 From Matt Harber To Everyone:
If he did that, I ain't quittin'.... I'm going out into the shop after this to try it...

17:54:34 From Captain Chaos To Everyone:
I'll be with Jim, turn a swirl, I'm outta here.

17:54:53 From Billy Burt - Alamo City, Texas To Everyone:
The only problem with a t-shirt is that I get shavings down my back...

17:55:21 From Bob Moffett To Everyone:
But you don't get them in your smock pockets.

17:55:40 From brenda To Everyone:
just be glad ur not getting the shavings in ur bra

WELCOME MIKE!

18:18:25 From Doug Miller in Kentucky To Everyone:

Excellent Demo Mark.. So Much Appreciated

18:24:15 From Steve Lackscheide To Everyone:
Outstanding demo, Mark! Thanks ever so much.

18:24:44 From Chris Bailey To Everyone:
please explain the cuts again. always into headstock or tail stock but never across?

18:25:15 From Bob Moffett To Everyone:
Outstanding demo Mark! Thanks, great job!

18:26:40 From Matt Harber To Everyone:
Yep, when you push the tool across, you can cause the wood to bow. This will break your piece or pop it out of the chuck.

18:27:05 From Bob Grinstead - Mansfield, Texas To Everyone:
don't put a lot of pressure straight into the wood. push it to the headstock or tail stock

18:27:08 From Matt Harber To Everyone:
So you always want to let the tool edge do the work, and the pressure into the headstock or tail stock.

18:27:51 From Chris Bailey To Everyone:
this is awesome training

18:27:52 From Dave Rhodes - Crescent City To Everyone:
Thank you Mark

18:28:06 From Terry McGrew To Everyone:
Thank you so much! Fantastic

18:29:06 From Doug Miller in Kentucky To Everyone:
Thank you so much Mark. I sure appreciate the whole thing.

18:29:21 From Bob Grinstead - Mansfield, Texas To Everyone:
always love to watch you turn Mark

18:30:04 From Doug Miller in Kentucky To Everyone:
Mark, how large a gouge would you go with this grind? 1/2"? 3/4"?

18:30:12 From Billy Burt - Alamo City, Texas To Everyone:
It was either Mike Mahoney or Martin Saban-Smith that said if you sand
for more than 15 minutes, you aren't making your piece smoother, you
are making it smaller!

18:30:15 From jim selby jacksonville fl To Everyone:
Learned a lot, Thanks Mark, really appreciate it.

18:30:31 From Billy Burt - Alamo City, Texas To Everyone:
Oh dang, Sue!
