Right, I can see I need a stronger UV light and was hoping for a suggestion on the right wattage that might work, or an actual light manufacturer. Mine is only 32 watts, clearly too low

18:49:48 From Dave Rhodes - Crescent City to Everyone:  
Replying to "Will someone recomme..."

Is there a best wattage, The one I have is only 32, and way too low. Is 50 watts adequate? Maybe more?
