- 17:53:07 From dewey : Though the Blood Type Diet has been around for a while, Kathleen Zelman, MPH, RDN, LD, a registered dietitian nutritionist and former director of nutrition at WebMD, explains that the theory behind the diet has been debunked. "It's somewhat of a gimmicky way to try to get people to eat healthier. There is absolutely no science to

substantiate that your blood type dictates the kind of diet that you should be on," she says.

From Billy B, Alamo City : Good!

Reactions: 🔥 🔥

19:01:47 From tracy : I can share my first piece.
Reactions: 👍 👍

19:02:53 From smedori-Red Deer, Alberta : I have my round bar skew almost done, from drill road. Should I heat treat the steel?
From Dane Chandler : what kind of steel did you start with
From smedori-Red Deer, Alberta : Drill rod- hardened steel.
From Dane Chandler : don't heat treat

19:03:59 From Leonard Davis in Athol, MA : I have tried my round skew a few times, still need more practice

From Joaquin Juatai : There's a learning curve because it's different than using a standard skew.

19:05:08 From Dane Chandler : its already hardend to the steel spec

19:06:38 From Leonard Davis in Athol, MA : Nikki, we all started with our 1st turning.

From nikki : I appreciate you saying that truly

Reactions: 👍

19:10:06 From tracy : Where does everyone get their oils?

From Matt the Gobleteer : Amazon, Woodcraft, Rockler, Craft Supply

From tracy : Thank you!

From Joaquin Juatai : Klingspor, you can get Danish Oil and boiled linseed oil at most local hardward stores.

From Joaquin Juatai : Hardware

From Dane Chandler : @tracy Ace Hardware, Home Depot, Lowes, mernards

19:10:55 From band aid brenda : my daughters here

19:12:11 From Daniel Smith Michigan : I have somethings to show

Reactions: 👍 👍

19:15:39 From Leonard Davis in Athol, MA : Nice Vera

From Vera Gannaway KS : Thanks Leonard!

19:16:06 From Leonard Davis in Athol, MA : Well done Tracy

19:18:53 From Big Dug! : Hey Vera , I like the pieces you showed. Did you use HSS or Carbide on your last piece? Do you have a preference now on which type to use?

From Vera Gannaway KS : I used only high speed steel on all the pieces I showed tonight. I've barely touched the carbide since I've come home from Level Up. I really like the cut I get from HSS. The wood I used for the snow men was very punky and would have

been

super rough or needed a lot of sanding if I had used carbide.

From Tim Hatch Bastrop, TX : AWESOME @Vera Gannaway KS So Stinking Proud of

You... Great Job
From Vera Gannaway KS : How is your turning coming Big Dug?
From Dane Chandler : @Vera Gannaway KS that is so awesome to hear Vera!!!!

19:19:44 From Leonard Davis in Athol, MA : Hi Haim

19:21:13 From Dane Chandler : 2000rpm

From Jayson Cote : I think you are missing some zeros! LOL
From Leonard Davis in Athol, MA : Why?
From Dane Chandler : @Jayson Cote lol
From Matt the Gobleteer : I WANT a lathe that does 15,000 RPMs!
From Jayson Cote : irregardless of the speed, Haim comes up with some really great demos!
From Dane Chandler : @Matt the Gobleteer use a treadmill motor

Reactions: 🎉

19:23:08 From band aid brenda : perfect demo for tracy...she wants to do a bowl

From Dane Chandler : rectangular will be challenging.....gotta learn the tool technique of presentation first. spindle work is the best for this.

19:26:11 From smedori-Red Deer, Alberta : Will have to catch the demo later. Good night everyone

From Jayson Cote : g'nite Scott
From Leonard Davis in Athol, MA : GN Scott
From Tim Hatch Bastrop, TX : Good night Scott
From Zoom user : Have a good nite Scott
From Dane Chandler : Dug will fill ya in tomorrow
From Dane Chandler : @Zoom user whats your name please?

19:27:18 From Billy B, Alamo City : Yes, Nikki, the bottom will be rounded

19:27:23 From Dane Chandler : he is just hogging material off Nikki to get to the shape

19:28:21 From band aid brenda : what speed is he at

From Dane Chandler : about 2000rpm
From Dane Chandler : what he said....

19:28:24 From Dane Chandler : what you do when starting with a rectangular or square piece until you get it round

19:28:26 From Patrick Hoggard Chiskie, NC : I had a Nova Galaxy that would turn 5000 rpm and

it would scare the hell out of you.

From Joaquin Juatai : Jim Duxbury has a little Delta, I think, that turns that fast. It's wild.

Reactions: 👍

19:30:56 From Billy B, Alamo City : I am intently watching. lol

19:39:36 From Tim Hatch Bastrop, TX : Notice he is using the bottom of the gouge as he is shear scraping..Never the Top... it will get you one Heck of a Catch if you do it wrong....

19:40:34 From Tim Hatch Bastrop, TX : Not that that has ever happened to me...LOL

From Leonard Davis in Athol, MA : Thanks Tim, I saw that.

From Leonard Davis in Athol, MA : Now if I can just remember when I go to turn a bowl!

From Tim Hatch Bastrop, TX : Yes Sir you need to do one or two for Christmas presents

From band aid brenda : play the rerun while your turning

From Leonard Davis in Athol, MA : @Tim Hatch Bastrop, TX @Tim Hatch Bastrop, TX Hoping to have the time.

From Tim Hatch Bastrop, TX : I know the feeling @Leonard Davis in Athol, MA...

Reactions: 😂😂

19:42:49 From Billy B, Alamo City : Worn sandpaper is like a dull gouge. It won't cut.

From Joaquin Juatai : Mark Sillay told me to use sandpaper like I'm sponsored.

Reactions: 👍👍👍👍
