John Brown provided this sketch with an idea of how to fabricate your own tiltable table lathe. This is great for those who can't stand at a lathe.

WE WILL USE THE PHOTOS ON OUR WEEKLY PROGRAM, IN THE NEWSLETTER, AND ON WWW.WORLDWIDEWOODTURNERS.ORG

WE WILL NOT USE YOUR LAST NAME OR THE TOWN YOU RESIDE IN. WE WANT TO SHARE YOUR SHOP, THOUGHTS AND INGENUITY.

About Us:

Following a very interesting trip to SWAT in August 2019, a concept was developed in which a woodturning organization could be created with only one mission, that is to spread the knowledge of Woodturners around the world.

Following collaboration with turners from all around the world, it was decided to create a virtual woodturning club. A club which is non-sponsored, not tied to any membership fees, magazine or any other requirements.

This club is open to all turners on this planet, all you need is a love for Woodturning
